

Regression Guide

1. Press STAT, Select Edit
2. Enter x in L1 and y in L2
3. Press STAT and right arrow to the CALC menu
4. Select the type of function
(Linear, Quadratic, Exponential, etc.)
5. Press ENTER Twice

Note: to save the answer in Y1 to be graphed:
LinReg(ax+b) L1, L2, Y1
Y1 is found in VARS menu

If r and r^2 are not showing,
press 2nd CATALOG, find
DiagnostiCOn and press
ENTER twice

Regression Guide

1. Press STAT, Select Edit
